SECTION 2

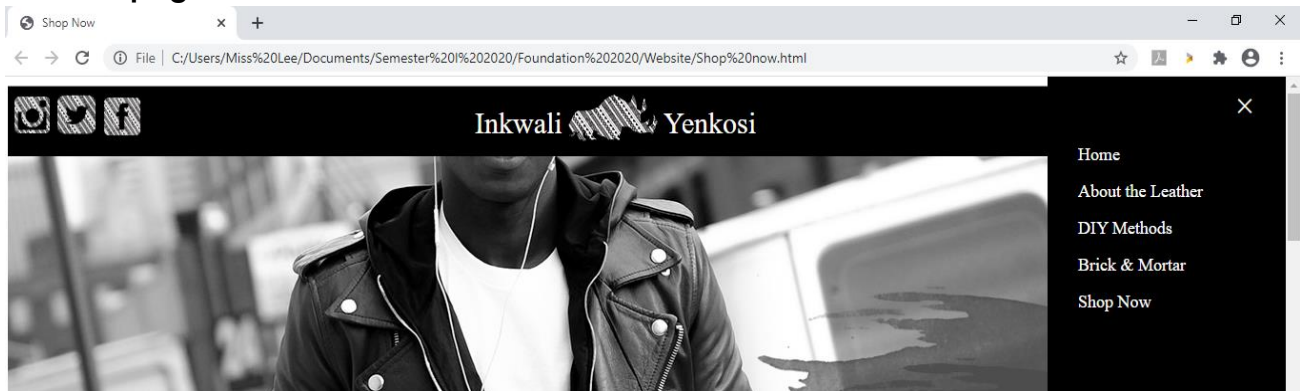

120 MARKS

1. You are part of the Web development Team, currently designing a Web site for A company called Nkwali Yenkosi that designs and sells leather clothing and accessories. The Web site is made up of 5 Web pages (**Home, About the leather, DIY Methods, Brick & Mortar and Shop Now**). You are responsible for creating the **Shop Now** Web page and **2 Web pages** connecting to it. You must follow the following instructions to complete the **Shop Now** Web page, use the **Assets folder** provided for resources such as images required and font family to be used.

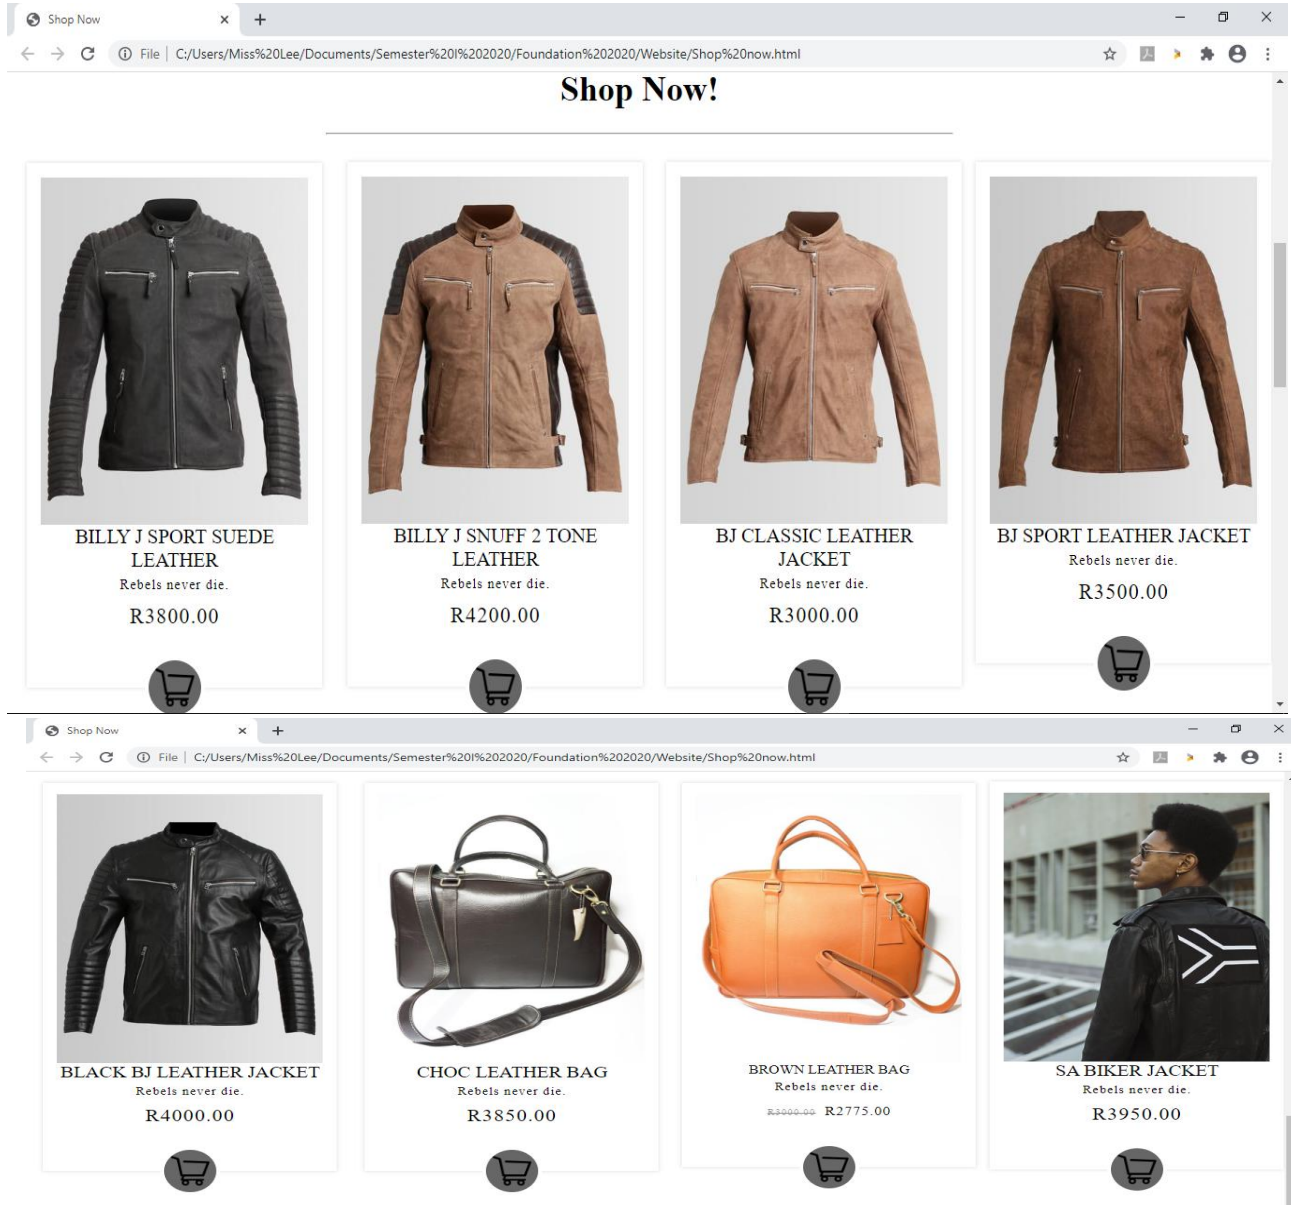

- a) The Web page should be **titled Shop Now**. The navigation bar includes **images of 3 social media** which are links to the different social media pages. The Nkwali Yenkosi **logo**. The link to the **Hamburger style navigation** and the landing page should look as **illustrated below**:

- b) The Hamburger style navigation should contain all the links to the **5 web pages**. As illustrated below:

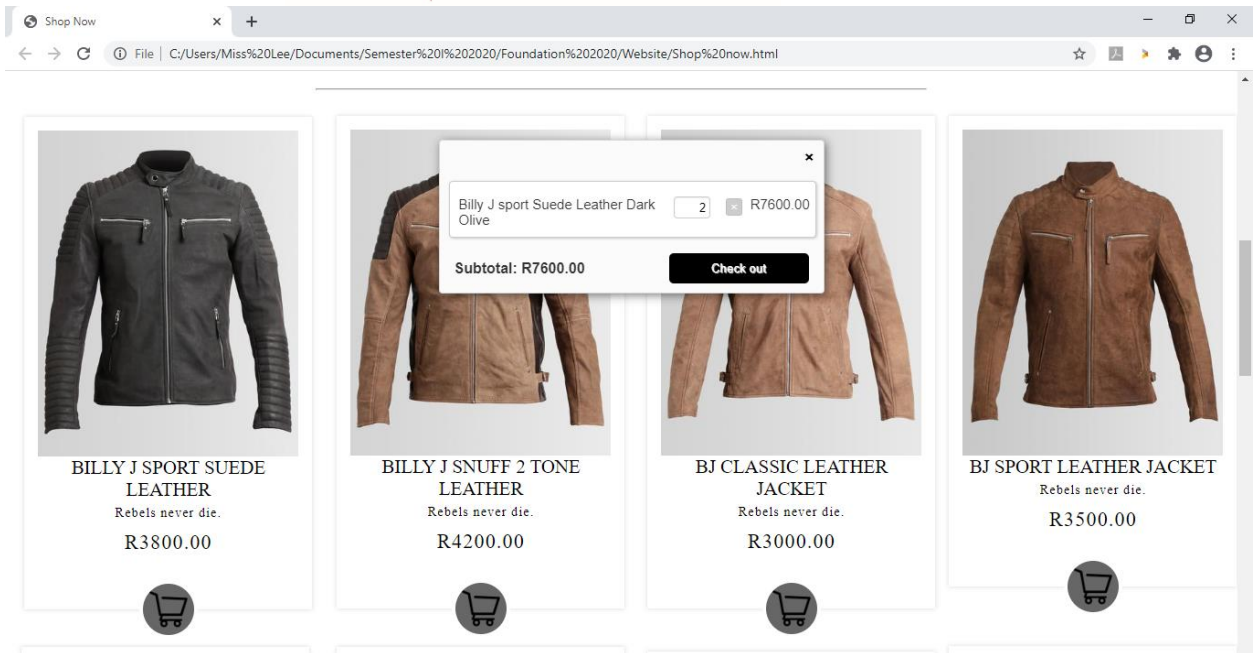

- c) As the user scrolls down, they should see the **Shop Now!** Heading and the different clothing items they can shop, with the prices and the icon to click on to buy the item. As illustrated below:

- d) When the user clicks on the icon to buy a pop box will appear which will allow them to select how many of the item do, they want to buy. It should calculate accordingly. As illustrated below:

- e) When the user clicks check out. They should be redirected to the Checkout page, where they need to fill in information. As illustrated:

Province:  
Gauteng

Your ZIP Code \*

Special Instructions

**3 Billing Details**
